### Mobile Monday Vancouver (“MoMoVan”)

**Date:** Monday, October 2nd, 2006

**Registration:** 5:00 PM

**Presentation:** 5:30 - 6:30 PM

**Networking** 6:30 - 7:30 PM

**Tickets:** \$20.00

**Location:** *Presentation* - Hyatt Regency Vancouver, 655 Burrard Street, 34th Floor

*Reception* - Mosaic Bar & Grill, 2nd Floor

#### **FACE TO FACE: PARTNERING WITH NETWORK SERVICE PROVIDERS**

Strategic partnering is a key element of success and growth for any wireless company, regardless of size. And network service providers are critical components to any successful wireless strategy. October's MoMoVan session opens the doors to understanding network service provider access, technology and business development alliances, and strategic partnering as a whole. Learn how to engage and leverage the other half of the content and delivery equation beginning with this session.

Join us to hear from industry experts as they discuss:

- Technology Solutions Being Sought
- Business Development & Partnering Protocol
- Network Service Provider Technology Roadmap
- Future Opportunities

#### **Event Moderator:**

**Peter Lesyk, Vice President of Wireless Solutions - GPS Industries and WINBC Board of Director**

#### **Panelists:**

**Chris Langdon, Vice President Wireless Solutions - Telus**

Chris Langdon, who has over 14 years of experience in the telecommunications industry, currently leads the TELUS product development and management teams that deliver future-friendly wireless solutions to consumer and business markets. He was also instrumental in the launch of TELUS Mobility's wireless high-speed (EVDO) national 1X and 802.11 data services. Mr. Langdon is a graduate of the University of Waterloo and holds an MA in Economics from the University of British Columbia.

**Dave Mordue, Head of Strategic Sourcing - USA - BT Group**

Dave Mordue joined BT in 1987 and is responsible for developing new sources of innovation and commercial advantage for BT Group. His role includes identifying and assessing prospective new sources of supply and developing new commercial strategies. Previously David has served for 2 years on the BT Americas Leadership Team and has led BT Group's procurement teams for Content Hosting, IT, Services and Fiber Network.

**Greg Julian, Manager, Vancouver Wireless Data Solutions Team - Bell**
